

Fear Free Commitment to You!

We are proud to have Fear Free certified professionals on our team and are dedicated to caring for your pet's emotional well-being as well as his or her physical well-being.

Unless it's medically inappropriate, we'll be giving your pet lots of treats during the visit. This is so he or she starts to associate the trip to the veterinarian with good things! That will keep stress levels low. Bringing your pet into the appointment hungry can help this process along.

We'll use gentle control techniques, innovative tools, and medication when necessary to ensure that your pet's emotional health isn't sacrificed for the sake of medical care. The use of these techniques, tools, and medication is to prevent stress levels from increasing just for the sake of getting procedures done. There may be times that we do not do all elective procedures, due to stress increasing, and will prescribe medication to help that stress and attempt at a later date. Please understand that we have the best interest of your pet in mind when making these suggestions.

Questions? Just ask! We want you to be happy, too! Interested in learning more about Fear Free? Visit fearfreepets.com
